Skills

Core stack

Java / Spring Boot
Angular / TypeScript
PostgreSQL

Additional technologies

Node.js / Express / NestJS
Vue.js
MongoDB
NiFi
PHP / Dolibarr

DevOps & Quality

Docker
GitLab CI
Unit testing: JUnit
SonarQube / ESLint

Best practices

Clean Code
SOLID
CI/CD
OWASP
WCAG
Git workflow

Certifications

- AWS Cloud Practitioner (2023)
- DevSecOps Foundation (2023)
- 2AIconcept Expert Trainer (2024)

Education

- M2i POEI Fullstack Spring/Angular (2022)
- OpenClassrooms Fullstack Node/React (2021)
- ENSGSI General Engineer (2013)

Profile

Fullstack Java / Angular developer with 4 years of experience in corporate environments. I design robust applications with a focus on code quality, CI/CD and engineering best practices. I also support teams in project structuring and technical upskilling.

Professional Experience

Web Development Trainer – freelance

Oct 2024 – Present

- Java new features (v6 to v21).
- Modern HTML5 and CSS3. development
- Angular: architecture, components, services, RxJS, Reactive Forms.
